

To Whom It May Concern:

I have been an avid listener and subscriber to XM Satellite Radio for almost a year now. I drive a 90 minute round trip 6 days a week to work and school. Though I don't live in one of the cities that XM offers up to the minute weather and traffic, I believe that these services benefit many people that do live in these cities. It saddens me to even think that someone would want to strip this service away from people that need it, and more importantly have paid for. I believe XM has a right to air whatever they believe necessary to keep their 1.4 million loyal customers happy. I can truly say that I am one of those 1.4 million happy customers. XM Satellite Radio is a great service. It is one of the best purchases I have ever made, and will continue to pay for it as long as it is offered, no matter what price. It is my choice and if I am paying for something I believe that I should be able to listen, see, or read anything that goes along with it. That is a right that every American has and cannot be taken away.

Sincerely,

Will Larkin
